HAVANA BEACH DOME INSTRUCTIONS

ASSEMBLY INSTRUCTIONS

OZtrail advises to assemble your shelter before use to ensure all parts are present and to become familiar with the assembly of your shelter.

STEP 1 CHOOSE THE SITE

Clear a level area for your beach dome.

STEP 2 LAY OUT THE BEACH DOME

Unpack the contents of your beach dome. Lay out the shelter in the direction you wish it to face.

STEP 3 ASSEMBLE THE POLES

Assemble poles making sure each pole junction is securely connected. Place the assembled poles side by side for easy identification.

STEP 4 STANDING UP THE SHELTER

Select the long side pole and slide it through the pole sleeve that horizontally runs across the shelter. Connect the pole ends onto the webbing pockets at the base of the shelter. Allow the poles to bow into their natural curve at this stage. Now select the small front pole and slide it through the pole sleeve that runs from the rear of the shelter to front. Connect the pole ends to the webbing pocket at the rear base of shelter and front roof tip.

STEP 5 PEG OUT AND FILL SAND POCKETS

Ensure all peg points and sand pockets are utilised and remain firm. Make sure the shelter remains securely anchored at all times.

IMPORTANT In severe weather conditions the shelter should be dismantled whilst you seek shelter in safety – such as your vehicle.

DISASSEMBLY INSTRUCTIONS

To pack away, simply reverse above steps.
