

AIRBED INSTRUCTION MANUAL

Read the following instructions and warnings before use

INFLATING AIRBED USING AIR PUMP

1. Open external end cap, pull firmly to extend the base valve to open internal seal (Fig 1)
2. Secure air pump nozzle into valve, then inflate using air pump (Fig 2)
3. After inflation, seal by pushing the valve into the bed with nozzle (Fig 3)
4. Remove the pump nozzle and close the end cap. Ensure the valve is hard-pressed into the bed (Fig 4)

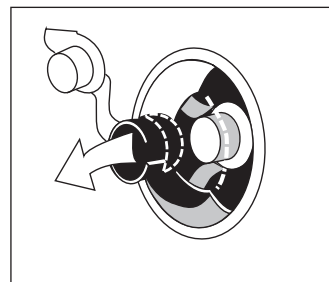

FIG 1

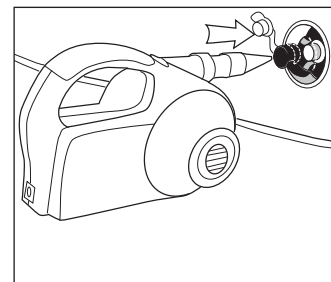

FIG 2

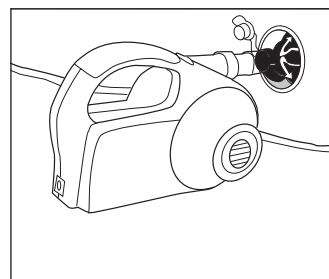

FIG 3

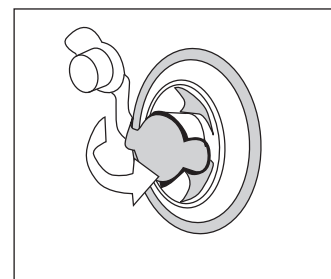

FIG 4

DEFLATING WITHOUT A PUMP

1. Pull the valve out from the airbed
2. Pull open the end cap
3. Take out the stopper to release air
4. Ensure the bed is clean and dry for storage
5. Fold deflated airbed and store in carry bag

DEFLATING WITH A PUMP

1. Attach air pump nozzle to deflation side of pump
2. Repeat same steps as inflation. This will draw air out quickly
3. Ensure the bed is clean and dry for storage
4. Fold deflated airbed and store in carry bag

REPAIR INSTRUCTIONS

1. Clean the surface around the puncture area
2. Cut the patch to size, to cover approximately 1.5cm around all edges of the puncture
3. Remove the paper back from the adhesive patch
4. Attach the patch and press firmly
5. After 30 minutes, inflate the bed and check the repair site

WARNING!

- Adult supervision is required for inflation and deflation of this airbed.
- When inflating airbed, take care not to over inflate. Allow for temperature increases that may increase the pressure of the airbed.
- Only use a recommended hand or foot pump or electric airbed pump. Do not use air compressor pump or hair dryer
- Take care to remove any sharp objects in the area that may damage the airbed.
- This product is not suitable for children under 4 years of age and people with limited mobility. The risk of suffocation increases on beds including airbeds for young children and people with limited mobility.
- Keep away from open flames, heaters and other hot objects. Do not smoke on or near the airbed.
- Do not use this airbed in water, it is not a water toy, it should not be used as a floatation or life saving device.
- Do not stand, walk, jump or play on the airbed.

MATERIALS

- PVC

CARE INSTRUCTIONS

- Clean the material with a soft cloth and mix of mild detergent and fresh water. Do not use bleach or any abrasive cleaners.
- Rinse with fresh water.
- Allow to thoroughly dry and clean before storage.
- Do not dry in direct sunlight.
