

OWNERS MANUAL

SHADE DOME DELUXE PORTICO TENT

10001868

BEFORE YOU BEGIN

- This tent requires a minimum of two people to set up
- Read all the instructions before setting up your tent
- Check parts list to ensure you have full contents
- Find a flat area for your tent, free from rocks, potholes and branches
- Ensure that you use all pegs, ropes and additional poles only as instructed
- If conditions are windy, arrange tent to have narrowest side of tent facing into the wind
- Keep away from open flames, DO NOT USE stoves or burning appliances inside the tent

STORAGE

- To maximise the life of your tent, always ensure it is clean of dirt and debris
- Never store if wet or damp. Consider airing your tent at home after your trip and allow to completely dry before storing between trips
- Continued exposure to sunlight can degrade the polyesters used to make tents. Always store your tent in its storage bag, away from direct light in a cool, dry space

*Shade dome not included

CONTENTS

- Portico tent x 1
- Steel poles x 2
- Fibreglass pole x 1
- Pegs x 16

OWNERS MANUAL

SHADE DOME DELUXE PORTICO TENT

10001868

STEP 1: LAYOUT THE PORTICO

- Assemble your shade dome as per manufacturers instructions
- Unpack your portico and check that all parts are there
- Lay your portico flat on the ground

STEP 2: ATTACH PORTICO ONTO SHADE DOME

- Attach portico clips onto the steel side poles on the shade dome
- NOTE: ensure you're setting this up on level ground to avoid portico being set up incorrectly

STEP 3: ASSEMBLE PORTICO

- Peg out the portico to ensure sufficient tension on front and sides
- Insert the fibreglass pole through the sleeve and into the smaller diameter hole on the 2 way connector, then insert onto the other sides connector
- Insert steel upright pole into the larger diameter hole on the 2 way connector then the bottom of that pole into the ring and pin located on the ground, repeat on other side
- Attach bottom of portico onto shade dome foot with the metal hook with stretchy webbing

STEP 4: SECURE TENT TO GROUND

- Adjust the peg points where needed to ensure the shelter is tensioned correctly
- Peg out the guy ropes to ensure the shelter is set up fully and correctly

STEP 5: CHANGING WEATHER CONDITIONS

- In light winds and rainy conditions, doors and windows must be closed, and guy ropes must be checked to ensure they're tight
- If weather conditions get worse, the tent needs to be packed away to avoid any damage or injury

PACK UP:
